

Huron County Register of Deeds

Huron County document images and indexes from January 1, 1950 through present day are available online.

The indexes are not construed to be true and complete; rather it is a working index subject to error, omission and future modification. Every effort is made to be accurate in the presentation of indexed data, however, errors can and do occur. Consequently, the indexes provided do not constitute a certification as to its accuracy.

[Laredo Anywhere](#)

Fidlar Laredo is a subscription-based service that allows you to search multiple fields, save searches, print results and print images of recorded documents. Popular for high volume record searches.

Fidlar Tapestry EON is designed for occasional users or those who want the freedom to search in all counties which use Fidlar Technologies records management system. All you need is a web browser for 24/7 access to county land records. From the Tapestry website, users can access information from all participating counties. Tapestry requires a pay-as-you-go payment.
