

Request for Bid: Backup Generator Replacement Installation

The County of Huron is currently seeking proposals for replacement / installation of a backup generator system at our 911 Central Dispatch Building. As an essential component of our emergency preparedness plan, the backup generator will ensure uninterrupted power supply during outages, thereby safeguarding our operations and services.

Project Overview:

- **Location:** 99 West Soper Road, Bad Axe MI 48413
- **Scope:** Removal of current generator from pad. Supply, installation, and commissioning of a backup generator system and automatic transfer switch.
- **Requirements:**
 - Generator capacity: 100 kW / 125 KVA (current generator size)
 - Fuel type: Natural gas (or alternate fuel source if natural gas is not feasible)
 - Compliance with local building codes and regulations including permits
 - Noise levels within permissible limits
 - Automatic transfer switch for seamless transition during power outages
 - Maintenance plan and warranty options
- **Timeline:** Specify your proposed timeline for completion from procurement to installation, commissioning of new generator and removal of current generator.
- **Budget:** Provide a breakdown of costs including equipment, installation, and any additional fees.
- **Additional Information:** The current generator fuel is propane. It is the desire of the County to move the next generator to natural gas fuel. Consideration to the cost and equipment to move from propane to natural gas should be included in bid. Building has natural gas service, however, is not configured for natural gas service to a generator.
- **Automatic Transfer Switch:** Building has an automatic transfer switch for current generator. Bid should include cost of replacement switch if switch replacement is required for new generator. Current switch was installed in approximately 2001.

Submission Guidelines:

1. **Proposal Deadline:** Friday May 24, 2024 – 4:30 pm
2. **Submission Method:** Written Sealed Bid to Huron County Board of Commissioner, 250 E Huron Ave, Bad Axe MI 48413 ATTN 911 Generator Bid
3. **Clarifications:** Any questions or requests for clarification should be directed to Huron County 911 Director Randy Miller, 989-269-6435 / 989-550-0649, miller@co.huron.mi.us.

We encourage vendors to visit the site to assess the requirements accurately before submitting your proposal. *Please schedule site visits with Huron County 911 Central Dispatch Director Randy Miller, 989-550-0649. You may text or call to arrange site assessment visit.*

Thank you for considering this opportunity. We look forward to receiving your proposal and potentially collaborating on this important project.
